

# SUPERIOR SAFETY KNIFE

## A33

**AUTO RETRACT  
MECHANISM**

Code: A33

The A33 is one of the most popular safety knife we ever made. Superior Safety Knife protects workers from injury and also provides strength and stability. Making cutting safe and easy. This safety knife is ideal for industrial or warehouse workers.

### A33 Superior Safety Knife

- Metal body for superior strength and durability
- Automatic spring blade retract mechanism
- Easy to change blade - No tools required
- Helps reduce cutting injuries in the workplace

How it works:

1. Push forward blade slider to extend blade

2. Take thumb away from blade slider and begin cutting

3. Blade automatically retracts after cutting when thumb is away from the blade slider.

#### APPLICATION:

✓ Strapping	✓ General Maintenance	✓ Paper Bags
✓ Cardboard	✓ Tapes	✓ Stretch Film
✓ Bubble Wrap		

#### REPLACEMENT BLADES:

Left handed also available:

Code: A33LH

### BLADE CHANGING INSTRUCTIONS:

Push black slider until red piece is level with end of knife.

Gently pull out red slider piece to expose blade.

Replace blade and re-assemble knife. Then test safety knife operates correctly.
