

METAL SAFETY KNIFE

A54

The A54 Metal Safety Knife has a strong die cast metal body for durability and strength. The spring blade retract mechanism provides safer protection when you are cutting. Extra large blade sliders offers you better control while cutting and blade exposure.

A54 Metal Safety Knife

- Heavy duty metal construction for durability and strength
- Blade automatically retracts after cutting to prevent accidents
- Extra large blade slider for better controlling of blade exposure
- Lanyard key-ring hole designed not to go in your pocket
- Suitable for left and right hand users

How it works:

1. Push forward blade slider to extend blade

2. Take thumb away from blade slider and begin cutting

3. Blade automatically retracts after cutting when thumb is away from the blade slider.
