BLADE CHANGING INSTRUCTIONS:

Before changing blade, ensure 'position 3' is shown (on the wheel)

Flick red button to 'Change' mode

Push blade slider all the way to the front. While holding the blade slider in place, carefully pull out old blade & replace

The new blade should retract back into place when you let go of the slider

Switch red button back to 'Work' mode to complete the blade change

For absolute safety, leave in 'position 0' when knife is not in use
