FILM SLITTER

Order Code: A50

LIMITED BLADE EXPOSURE

Helps reduce injury risk

The A50 film slitter is ergonomically designed and features a light weight body that sits comfortably in the users hand and finger.

Suitable for a range of slicing and cutting applications the A50 effortlessly cuts through cartons, stretch film, bubble wrap & strapping. With a concealed blade this safety focused film slitter is instrumental in reducing the risk of injuries and product damage.

Suitable applications:

- Designed by Qantas for Safety and Security on aircraft
- Finger hole design to prevent slipping
- Easy to operate and helps reduce injuries
- Light weight with ergonomic design
- Small and compact, fits easily in users pocket
- Suitable for left and right hand users
- Stainless steel blade
- Suitable for use in cutting detonation cord

Suitable applications:

Cartons	Cardboard
Strapping	Таре
Stretch film	Bubble wrap
Bags and Sacks	Pallet Coverings
Plastic Satchels	Detonation

HOW IT WORKS:

Easy to operate and helps reduce injuries. Perfect for warehouse

Allows your hand to handle other tasks while the slitter is still on your finger
