

Introducing the most innovative technology platform in mechanical protection. NXT Series by HexArmor NXT Series is the first product lone to utilise the TruShield™ performance, a ground-breaking armor platform that obliterates current recognise industry standards for cut, puncture, and abrasive resistance. Developed for use in applications such as utility knives or other cutting instruments, materials handling, flexible packaging, or box cutting applications, the NXT 10-301 protects from mechanical hazards like no other product on the market. NXT products take high dexterity gloves to another level of comfort, feel, and high performance protection that other products cannot match.

**ATTRIBUTES:**

TruShield™

Cut Resistant

Abrasion Resistant

**PROTECTION ZONES:**

**FEATURES:**

- This product has our innovative TruShield™ Performance Design Difference:
- **SuperFabric®** brand material and Coretek™ fibre provide 5x more cut resistance, and 11 x more abrasive resistance of traditional HDPE gloves
- Shielding design of fibres and **SuperFabric®** plating reduce ability of sharp objects and burs from penetrating and causing injury
- Quadstrech design technology provides incredible feel compared to other bulky cut resistant gloves
- Coretek™ fibre keeps hands cool & comfortable while providing best-in-class dexterity and all round cut protection
- Launderable

**PRODUCT USES:**

- Warehousing
- Flexible packaging
- Grinding
- Box cutting

**SIZES:**

7/S	8/M
9/L	10/XL
11/XXL	

HexArmor products are cut and puncture resistant, not cut and puncture proof. Do not use with moving or serrated blades and tools. User shall be exclusively responsible to assess the suitability of the product as specified for any individual application or use.

Protective materials are made in the USA.
